SIGIL AND SCRIBE

It Will Keep

a busy-brain notepad

Park it here. It will keep until morning.

How to use this pad

When your brain will not turn off, give it somewhere to put things.

Write down whatever is swirling: the idea, the worry, the 3am brilliant plan. One per page or ten, it does not matter.

Then close the pad. It will keep until morning. That is the whole deal.

What's swirling?
